INDIVIDUAL SOLUTIONS ON AN INDUSTRIAL SCALE

Integrated approach –
is our key advantage!

Innovative and trendy

We not only closely watch for the latest trends in the industry, we also aspire to generate new ideas and develop our own innovative solutions.

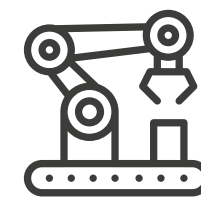

No limitations

Need a custom-made worktop? Or a new laminate sheet to match your worktop frame? Or maybe you'd like us to put them together for you? Do not worry, we've got you covered!

Prompt delivery

All our worktops are made within 7 days, and all our standard orders are delivered within 24 hours (if available).

Advanced technology

With our advanced industry-specific equipment and handling capabilities, we have increased our production speed and ensured premier quality.

Selected raw materials

We use only safe, premium-quality raw materials, which we carefully inspect in compliance with our high-quality control standards.

One-stop web store

To place an order or check the product availability, please visit our easy-to-navigate and secure website [rost.ua](https://www.rost.ua)

Marketing and technical support

With any new collections, we provide marketing and advertisement materials and quickly replace any outdated catalogues. Our new catalogues include selections of our laminate samples.

What we offer

We offer comprehensive furniture solutions for living spaces, offices and hospitality facilities, which you can adjust according to your preferences.

Kitchen cabinet doors and drawer fronts

Wall panels

Joints

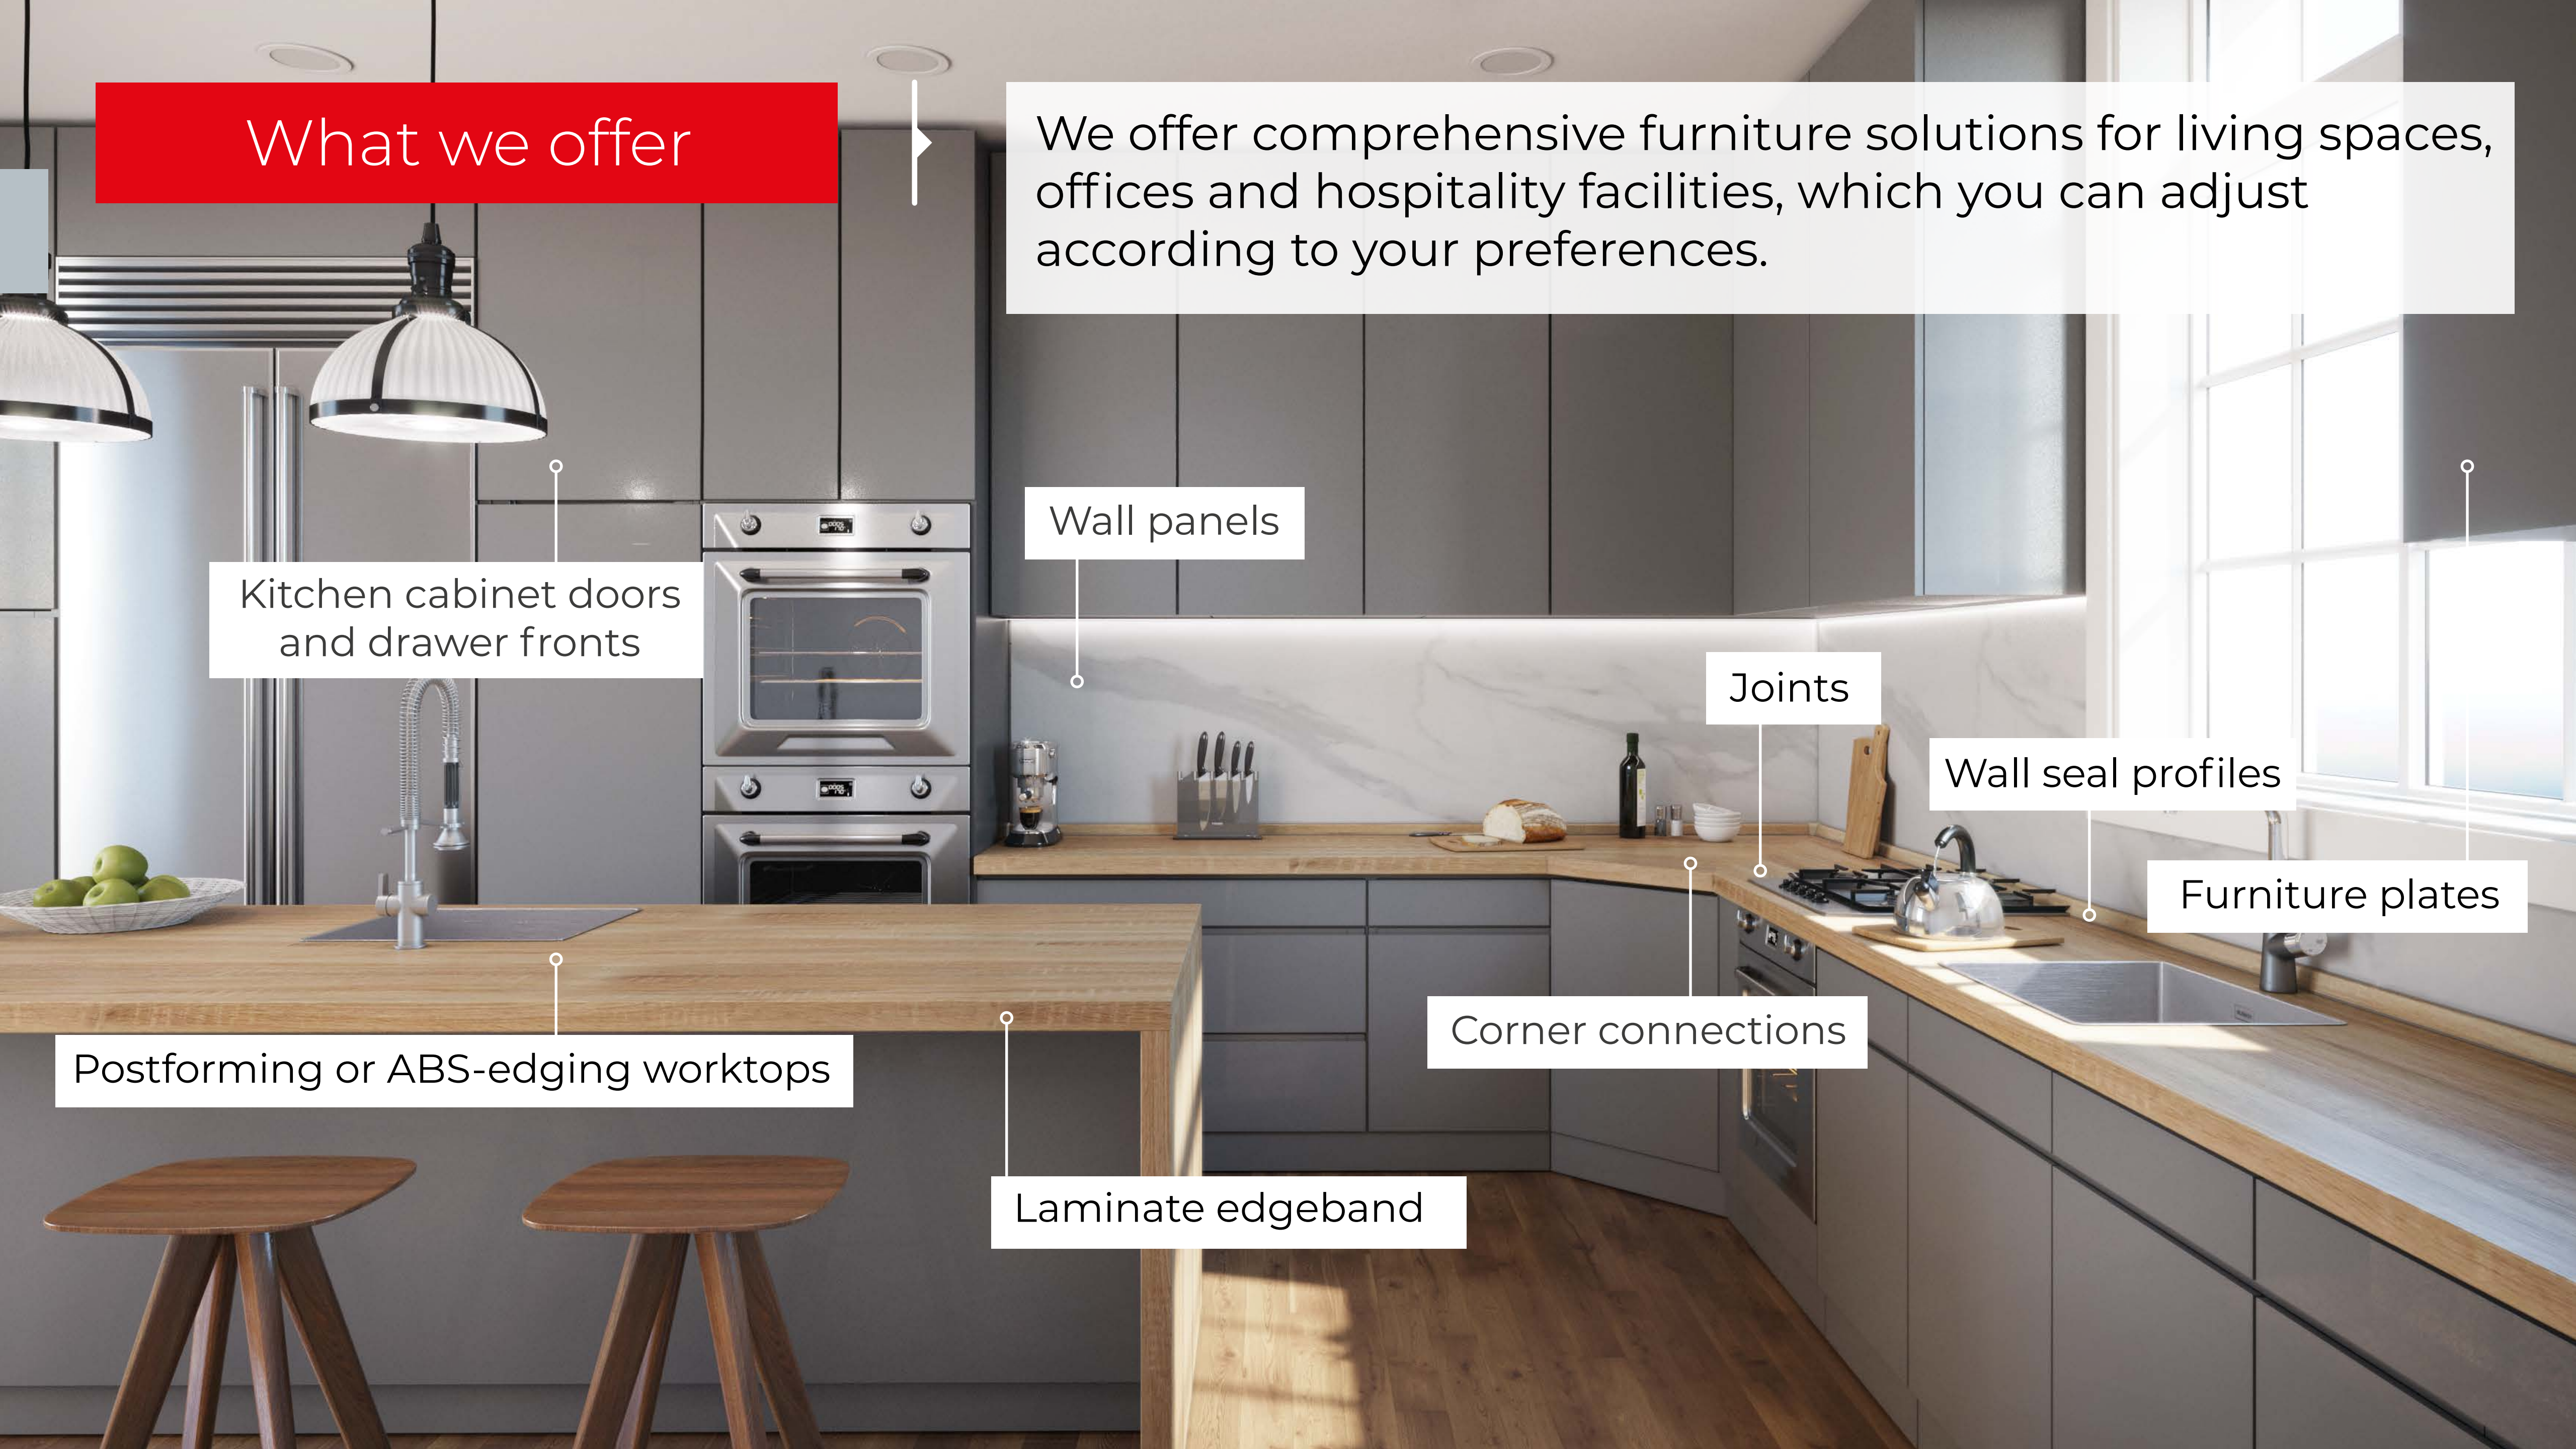

Wall seal profiles

Furniture plates

Postforming or ABS-edging worktops

Corner connections

Laminate edgeband

Worktops

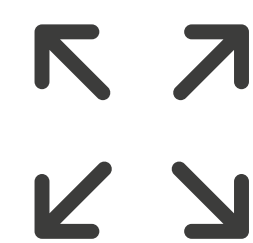

We offer not just worktops but full-fledged technological solutions. Every third family in Ukraine uses a **LuxeForm** worktop.

120
designs

Only our company offers such an extensive range of décors and designs. We partner with the largest number of laminate suppliers, including the world-famous brands such as Westag & Getalit, Lamicolor, Abet Laminati, Formica, Saviola and many others.

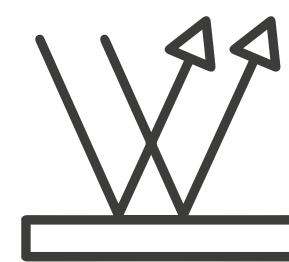

30
textures

Our stone, minerals and wood surface structures enhance the beauty of our designs, creating the feeling of natural touch.

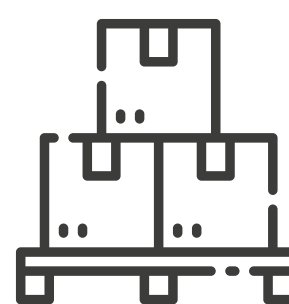

Custom-made products

Feel free to ask us for customised items. We offer individual solutions on an industrial scale.

Resistant to: daylight and UV radiation, chemical and mechanical effects, stains from coffee, tea and red wine.

Care at every turn

We carefully pack all items in reliable protective materials against any moisture or mechanical damage during storage or transportation.

Worktops

thickness: 18 mm, 28 mm, 38 mm

width: 300–1,200 mm

length: 3,050 mm, 4,200 mm

rounding radius: 3/6 mm

rounding type: 1L/U, 2L/U or no rounding

ABS-edging

LuxeForm worktop structure

High pressure laminate (HPL) with an overlay protective layer

Rounding radius 3/6 mm

ABS-edging

Ordinary or moisture-resistant chipboard

Balancer paper or laminate balancer

Water barrier seam of polyurethane adhesive

Sealing and protective insert (for 38 mm thick items)

Worktops with ABS-edging

HPL with an overlay protective layer

Polyurethane adhesive

ABS-edging

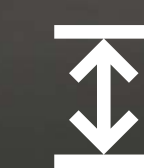

ABS-edging

Ordinary or moisture-resistant chipboard

White laminate L900

Wall panels

thickness: 10 mm

width: 600–1,200 mm

length: 3,050 mm, 4,200 mm

**reverse side: balancer paper
or white laminate L900**

Wall panel structure

Furniture fittings

Wall seal profiles

The LuxeForm collection of high-quality polypropylene wall seal profiles complements the designs of the LuxeForm worktops. The collection includes supplementary shades and universal options. The wall seal profiles are designed with dirt- and moisture-resistive barriers, protecting the worktops from mould or fungi formation.

Jointing strips of various radii

Our worktops are fitted with strips of corresponding dimensions (28 R6, 38 R1/R3/R6).

Edge

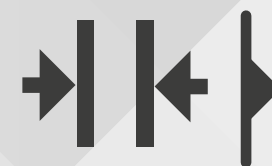

- Edge in the worktop decor for edging products of any thickness.
- For insertion into a transparent wall seal profile.
- ABS edge in color, recommended for certain LuxeForm decors.

Basic installation requirements

18–24 °C > 30 min

Before installation, please allow some time for acclimatisation.

4–5 mm

compensation period.

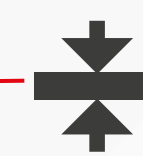

0°

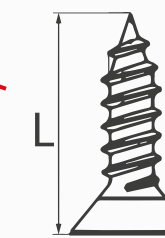

Support cabinets should be levelled.

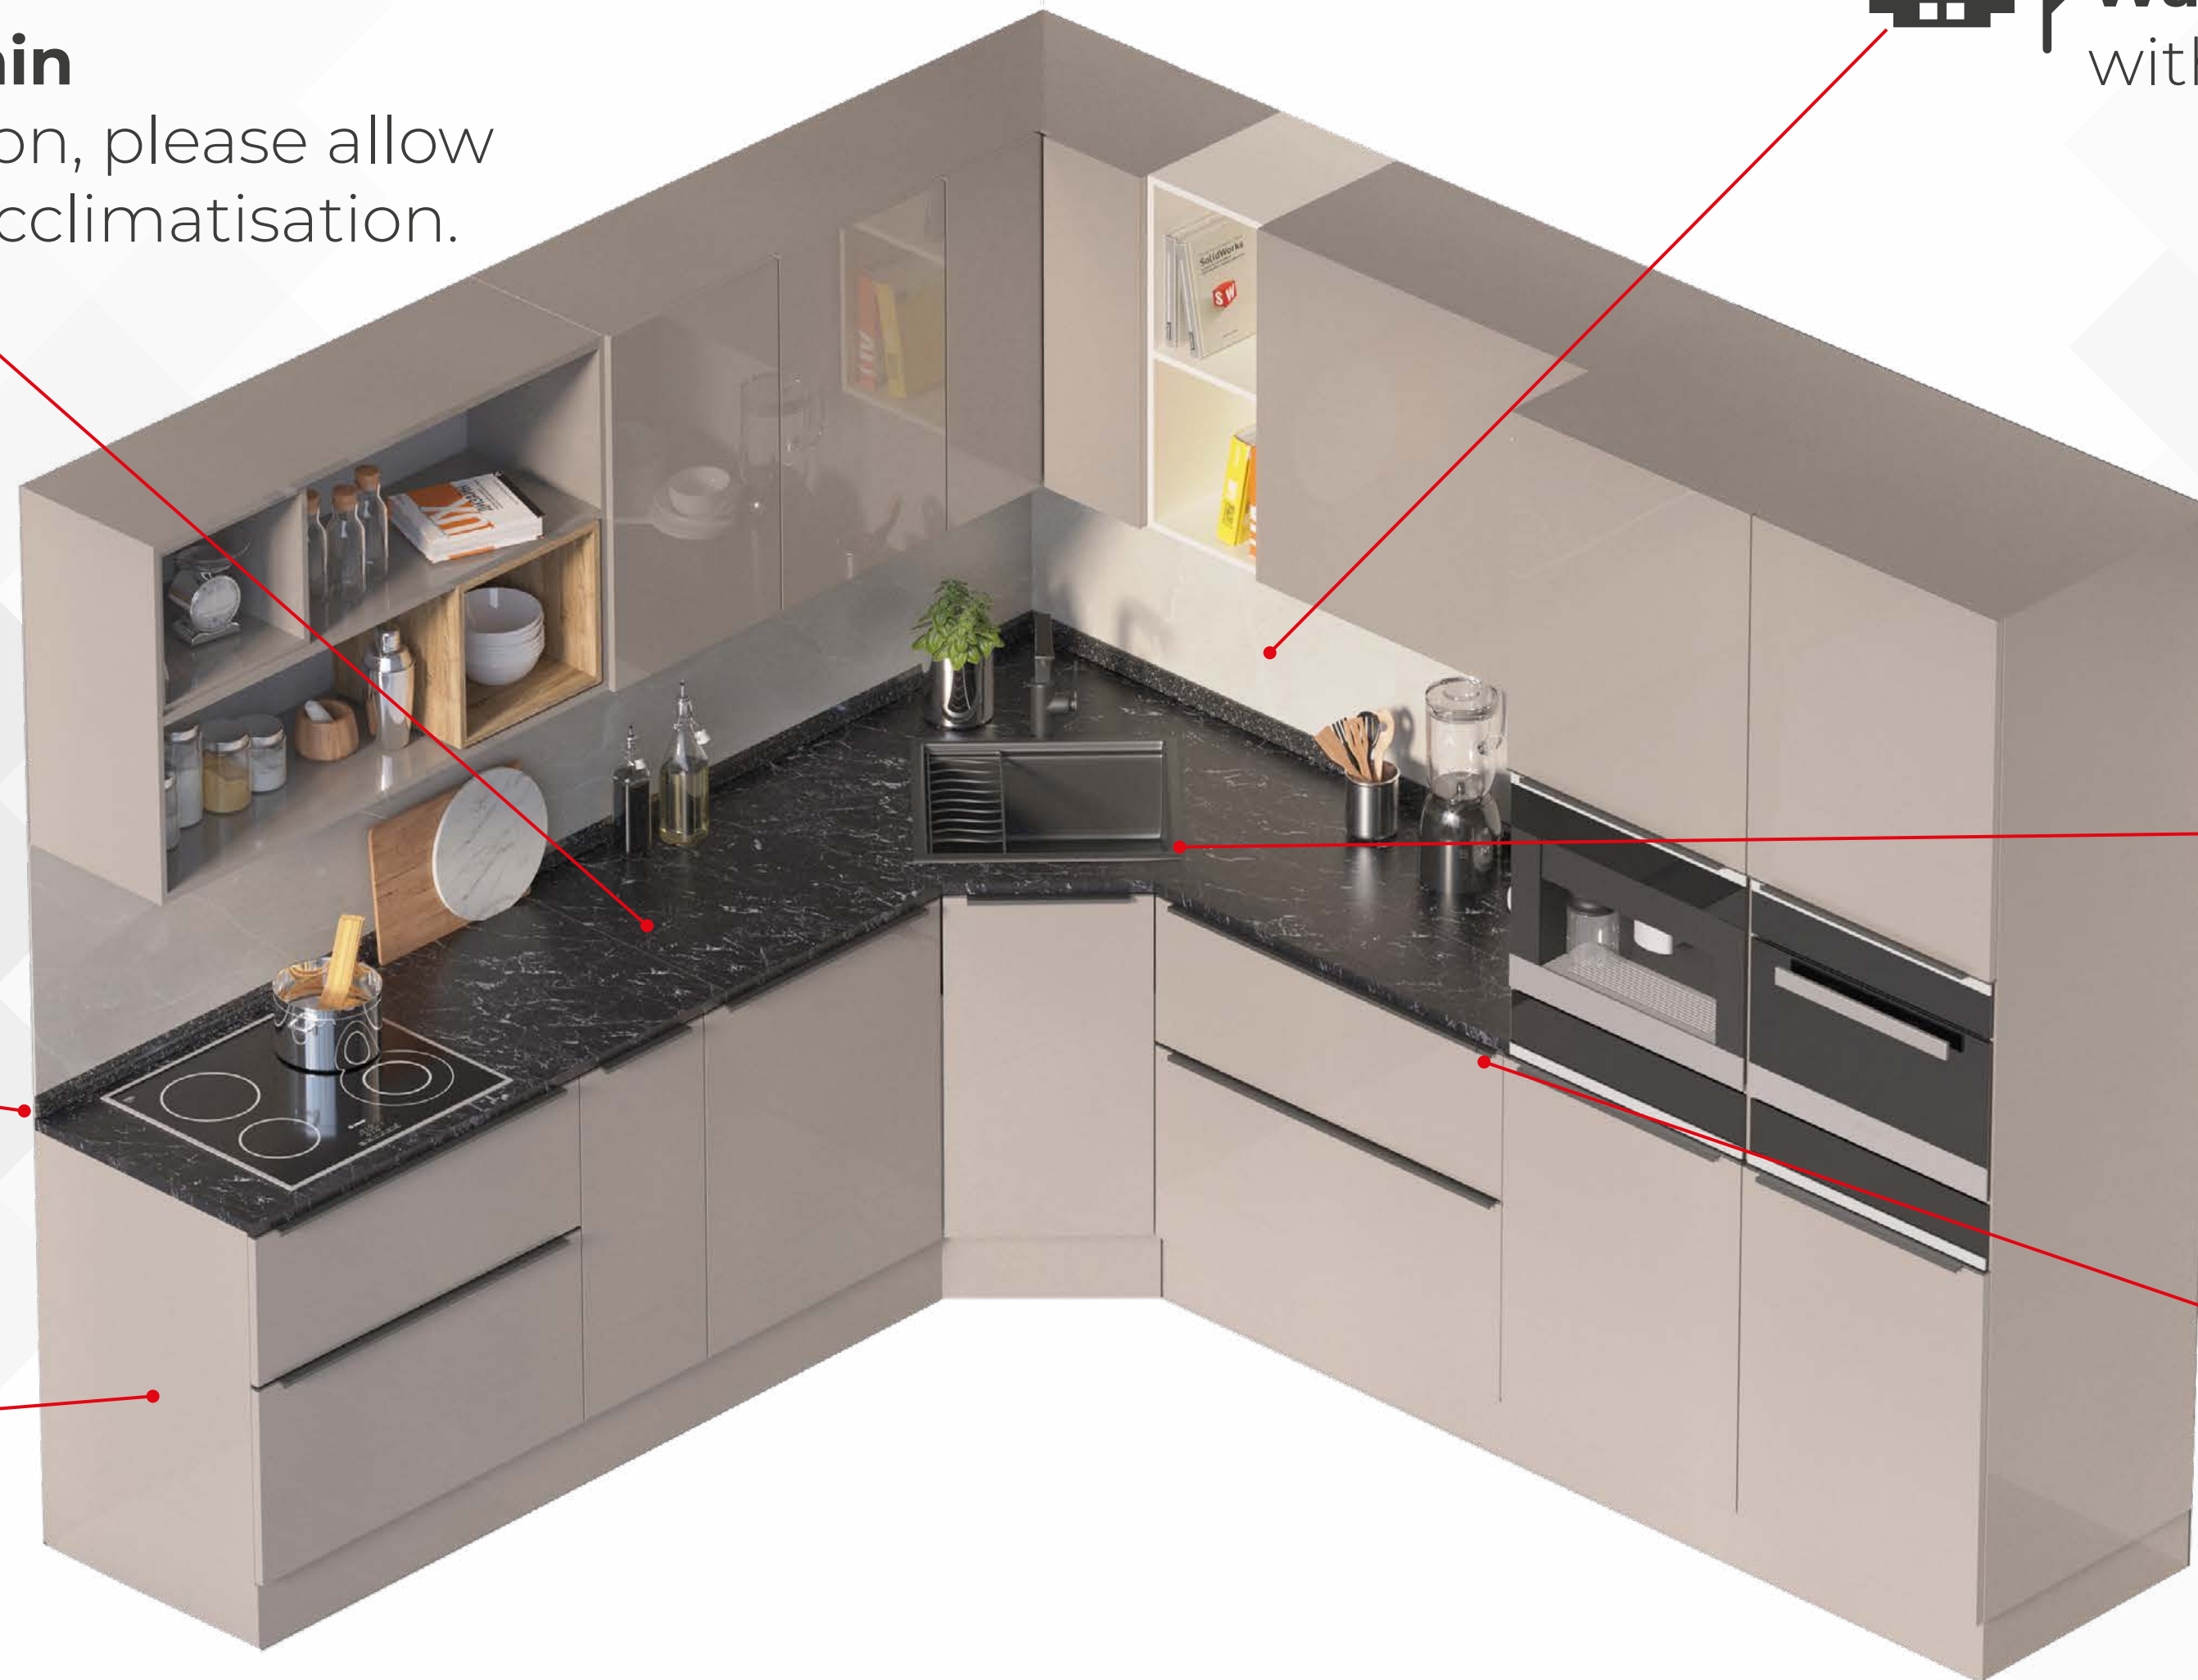

Wall panel mounting
with special fittings.

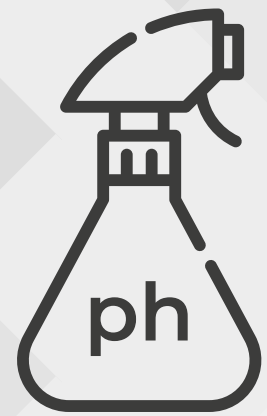

2–3 mm layer of water-resistant sealant
provides for long-term durability.

L is 5–10 mm less than
the total thickness of the jointing strip and worktop.

Worktop and wall panel maintenance recommendations

Immediately remove any stains using gentle non-abrasive cleaning agents.

Remove any mild soiling with a soft damp cloth.

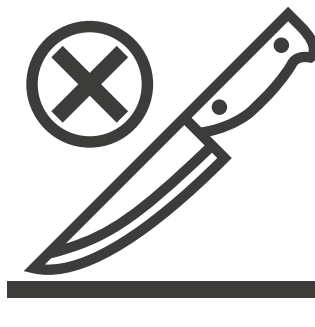

Immediately remove any water from the worktop surface, especially around and inside the butt joints.

Use a cutting board to prevent scratches.

Do not put any hot pots or pans on the worktop — stains may remain on the surface. Use a special support rack.

Do not leave any sharp objects or containers with household chemicals on the worktop surface.
